### Education:

Stony Brook University

- Major in Computer Engineering
- GPA: 3.8

### Related Coursework:

- CSE 114, Computer Science I.
- CSE 214, Computer Science II.
- ESE 123, Introduction to Electrical and Computer Engineering.
- ESE 124, Computer Techniques for Electronic Design I.
- ESE 218, Digital System Design.

### Skills:

- Familiar with Java, Javascript, Python, and C/C++.
- Familiar with Arduino and electronics.
- Experience with various libraries and framework for front-end and back-end with Node.js.
- Experience with various Databases and SQL-like query languages like SQLite.
- Experience with MapReduce programming model and its implementations like Hadoop.

### Internships:

- Engineering intern at Advanced Cleanup Technologies, Inc. 11 weeks of internship to complete three projects: Web Scraping software, Telemetry System to monitor machinery on the field and Feedback System to optimize cleaning process. — 06/2014 - 08/2014

### Personal Projects:

- Design and implement a website for students on campus exchanging books, using Node.js, MongoDB and JQuery. — 02/2014 – 05/2014
- Design and implement my personal website using PHP, JQuery and Bootstrap. — 10/2013 – 12/2013

### Affiliation:

- Member of Stony Brook Computing Society
